

ARABINOL® Multinstant SB

Softener colloidal stabilizer based on purified gum arabic

→ TECHNICAL DESCRIPTION

ARABINOL® Multinstant SB is a new generation of instantly soluble, refined and micro-granulated gum arabic. **ARABINOL® Multinstant SB** is a natural polysaccharide used to increase beer softness, body and head retention; its action is significantly superior to all liquid gum arabic products as it is 5 times more concentrated. It contains no SO₂ or other preservative additives. The product is in the form of ivory colored microgranules, perfectly soluble.

→ COMPOSITION AND TECHNICAL CHARACTERISTICS

Clear Gum arabic exuded from Acacia senegal, purified, microgranulated and microbiologically pure. Levorotation -25/35°.

→ DOSAGE

From 10 to 30 mL/hL.

→ INSTRUCTIONS FOR USE

ARABINOL® Multinstant SB should be dissolved slowly in water or beer; After being dissolved in water or beer, the solution can be added before the beer is packed. Being an organic product, the solution must be used immediately after its preparation.

→ STORAGE AND PACKAGING

Store in a cool dry place, away from direct sunlight and heat.

5 kg net bags.
