

The oenological products listed below are to be considered compatible*, as indicated for each, for the production of organic and/or “made with...” wines, in accordance with Implementing Reg. (EU) 2021/1165 of 15 July 2021 and Regulation (EU) No. 2018/848 on organic production and/or the United States Department of Agriculture (USDA) National Organic Program (NOP) Regulation.

* The conformity assessment is ultimately subject to the Control Body of the customer.

 The marked products are ORGANIC CERTIFIED

To the best of our knowledge we declare that, at the current state, according to what is indicated for each one, the products listed in this document are to be considered compatible with organic vinifications and/or “made with...” as produced with raw materials (gelatines, tannins, fish glue, vegetable proteins, arabic gums) and yeast strains, having no corresponding commercial certified ORGANIC equivalent (with the exception of products marked with the ORGANIC logo, which are certified organic).
